

# Professional Engineering and Related Services: RFQ Addendum #2

## City of Dunn, North Carolina

### May 5<sup>th</sup>, 2026

#### **Request for Qualifications Addendum:**

Below is a list of Addendum for the Professional Engineering and Related Services: RFQ that was released on April 20<sup>th</sup>, 2026.

1. Regarding Item #4 of Addendum #1. To clarify, coversheets and section dividers may be used throughout the SOQ. They will not count towards the 15-page limit of the SOQ regardless of where they are placed in the SOQ.
2. Regarding Section 3, page 4 of the RFQ Instructional document. To clarify, firms should indicate their intent to apply for specific categories of service within the Letter of Interest. Grouping of categories is allowed, but please indicate which categories are in each grouping so that comparisons between firms can be made.
3. Regarding Section 2, page 3 of the RFQ Instructional document. To clarify, firms can consider potential subcontractors/subconsultants when identifying which areas of services your firm is interested in on the Letter of Interest. As long as they are identified under your organizational chart (Section 3 page 5 "Organization of Consultant Team"), their services can be included in the Letter of Interest. The City does not want to encourage the use of subconsultants/subcontractors, but it does acknowledge that a single firm cannot have all the specializations required for all projects "in-house".
